Thanks, Lauren. I am working through Donn Walters...that's why he contacted you ☺ I am making the changes and will have them back to you today.

We will need placement ASAP. I will get the newspaper information on Houma from Bill Little, as soon as possible and we can use the MacMillan information from December.

A little part of the NPL puzzle that I failed to pick up on, I guess.

Subject: Public Notices for MacMillan Ring Free Oil and Wilcox Oil

Denise:

Attached are Word files for the MacMillan Ring Free Oil newspaper public notice (proposed to the NPL on December 12, 2013), and Wilcox Oil (final on NPL on December 12, 2013). Donn Walters called and said that MacMillan is will need a final NPL public notice, and a new site, Delta Shipyard, will need a proposed NPL public notice.

If EPA would like Toeroek's assistance with placing public notices in the newspapers, please coordinate through Donn Walters so that he can assign the tasks to us. We would need Word files for newspaper placement, not pdf files, so that we can resolve any formatting issues and size the notices into the proper dimensions to fit the particular newspaper's layout.

The newspapers generally require placement of notices at least two working days prior to publication.

Let me know if you have any questions. Thank you.
